

LWWUS work to Empower Voters. Defend Democracy.

The League is the nation's leading community-based, nonpartisan voting rights organization, using grassroots power and national influence to effect meaningful change at all government levels. Their mission's work is to:

1. Tackle mis- and disinformation through our **Democracy Truth Project** to help voters reject false narratives.
2. Increase the number of voters through our **Expand the Franchise** initiative, which registers new voters and makes critical registration and voting information available through **VOTE411.org**.
3. Push back against voter suppression through our **Democracy Defense Fund**, which launches legal challenges against policies that disproportionately target Black, brown, women, and young voters.
4. Ensure just and equal representation by mounting legal challenges against gerrymandering through our **People Powered Fair Maps™** initiative.

To continue empowering voters and defending democracy, we need you in this fight. As our opponents redouble their efforts to seize power through voter suppression, we defend the rights of voters — and we will never stop.
