Before going to the protest...

-  Install Signal for end-to-end encryption to protect text messages and voice calls.
-  Dress for anonymity and safety.
-  Remove fingerprint and face unlock on your phone.
-  Use a strong passcode to get into your phone.
-  Back up your data.

While at the protest...

-  Avoid posting photos with other protesters' faces visible.
-  Take photos and videos without unlocking your device.
-  Scrub metadata on a photo before posting: Transfer photo to desktop, take a screenshot of it, send it to Signal, download from Signal, then post.
